### ***Furutech's Award-Winning Pure Transmission Build Quality***

Furutech power cords, from these simple, beautifully-made \$99 replacements for CD and DVD players to the award-winning Reference III to the outstanding soon-to-be released carbon fiber series shown at CES '08, all display the same integrity of build quality. Furutech Pure Transmission technology turns a macro lens on every element of power and signal transfer applying optimized engineering solutions to well-known problems such as contact resistance, EMI and RFI rejection by using the best materials and processes available.

Meticulous attention to build quality is a large part of the engineering equation: Rhodium-plated nonmagnetic pure-copper and phosphor bronze fittings, 37-strand 0.26mm silver-plated  $\alpha$  (Alpha) OFC Conductor for hot and neutral with 37-strand alpha-OFC on neutral, carefully-engineered wire clamps, anti-resonance PVC sheath and inner wraps, plus Furutech's patented Ground/Earth Jumper system (not available on Schuko fittings) drains off further magnetic interference. All metal parts are subjected to the deep cryogenic and demagnetizing Super Alpha Process.

***MSRP: A Price/Performance Breakthrough at \$99 Each! • Availability: Now***

## Features:

- Twisted 3-core high performance power cable
  - Hot (Red) • 37 strands of 0.26mm silver-plated  $\alpha$  (Alpha) OFC Conductor
  - Neutral (Yellow) • 37 strands of 0.26mm silver-plated  $\alpha$  (Alpha) OFC Conductor
  - Ground (Green) • 37 strands of 0.26mm  $\alpha$  (Alpha) OFC Conductor
- Insulation: Polyethylene (Red/Natural/Yellow) 3.5mm diameter
- Wrap: Cotton and paper tape
- Sheath: Flexible PVC (Burgundy) approx. 10mm diameter

## The Critics Speak

*“The Evolutions, which cost less than half what the Reference IIs do, are by any rational standard extremely high-performance cables, though the References do a better job with low-level details very low-frequency bass, and background noise. ... If, like me, you appreciate taking many sonic steps forward and no steps backward, you’ll want to give these components a try.”*

-- Chris Martens, August 07 *the Absolute Sound*

*“If I had to limit myself to one key term ... I’d opt for relaxed ultra resolution. ... Things sound bigger. ... [Under high SPLs] there’s no funny business of compression, smearing or skewing ... The sense of big simply gets bigger and bigger and bigger. ... [There’s] something luxurious and silken about the Furutech connectors ... like fine Swiss watches ... perform to a very high standard, getting the tactile satisfaction and pride of ownership.*

--Srajan Ebaen, *6moons.com*

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products like the new Power 6, e-TP4+4, e-TP609 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, the deStat, a fan-driven, Balanced Ion Drive device for totally eliminating static from LPs and CDs, lightweight and stylish FRD Room Diffusion Panels, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.
